

P.U.(A) 328/86
FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING
CONSTRUCTION) (SAFETY) REGULATIONS 1986
PART XIII - MATERIAL HANDLING AND STORAGE, USE AND DISPOSAL

Regulation 119. General requirements.

(1) All materials in bags, containers, or bundles, and other material stored in tiers shall be stacked, blocked, interlocked, and limited in height so that it will be stable and otherwise safe against sliding or collapse.

(2) When any material is stored in public thoroughfares, it shall be located so as to prevent the least possible hazard to, and interference with the traffic and the public. Unauthorised persons shall not be allowed on or around the material.
