

P.U.(A) 328/86
FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING
CONSTRUCTION) (SAFETY) REGULATIONS 1986
PART VII - RUNWAYS AND RAMPS

Regulation 58. Use by vehicles.

All runways and ramps shall be substantially constructed and securely braced and supported. Runways and ramps for the use of motor trucks or heavier vehicles shall have a width of not less than 3.7 metres and shall be provided with timber curbs not less than 200 millimetres by 200 millimetres placed parallel to, and secured to, the sides of the runway or ramp and shall be designed by a Professional Engineer.
