

**P.U.(A) 328/86**  
**FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING**  
**CONSTRUCTION) (SAFETY) REGULATIONS 1986**  
**PART XV - BLASTING AND USE OF EXPLOSIVES**

---

**Regulation 144. Misfires.**

Immediately following the blast, the area shall be examined by the blaster for evidence of misfired charges. Immediately on learning of misfire, every person in the danger zone shall retreat to a safe distance or a safe shelter. The misfire shall be reported at once by the blaster to the person in charge and control of the disposal of the misfire and shall determine the safe and proper method of its disposal. No person except those designated to effect such disposal shall enter the danger zone until the misfire has been disposed of.
