

P.U.(A) 328/86
FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING
CONSTRUCTION) (SAFETY) REGULATIONS 1986
PART XI - DEMOLITION

Regulation 103. Inspection.

During demolition, continuing inspections shall be made by a designated person as the work progresses to detect any hazard to employees resulting from weakened or deteriorated floors or walls, or loosened material. No employee shall be suffered or permitted to work where such hazards exist unless they are corrected by shoring, bracing or other effective means.
