

**P.U.(A) 328/86**  
**FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING**  
**CONSTRUCTION) (SAFETY) REGULATIONS 1986**  
**PART XII - EXCAVATION WORK**

---

**Regulation 117. Deep trench.**

Where the trench requires two lengths of sheet piling, one above the other, the lower piling shall be set inside the bottom wales of the upper piling and shall be driven down and braced as the excavation continues.
